IMPORTANT DISCLOSURES & RISK CONSIDERATIONS

Investors should consider the Fund's investment objectives, risks, charges, and expenses carefully before investing. The Fund's prospectus contains this and other important information, should be read carefully before investing or sending money, and may be obtained from your Investment Executive, www.investdavenport.com, or by calling (800) 846-6666.

Risk is measured by standard deviation, which is the variability of returns around the average return. **Beta** is a measure of the volatility, or systematic (market-related) risk, of a portfolio as compared to the overall market. **Alpha** measures the excess return of your portfolio above the expected return as established by comparison to a beta-adjusted benchmark. The **Sharpe Ratio** indicates the excess returns over a risk-free asset per unit of total risk (where risk is measured by standard deviation).

Morningstar Disclosure: As of 1/31/2018. The Morningstar Rating™ for funds, or "star rating", is calculated for managed products (including mutual funds, variable annuity and variable life subaccounts, exchange-traded funds, closed-end funds, and separate accounts) with at least a three-year history. Exchange-traded funds and open-ended mutual funds are considered a single population for comparative purposes. It is calculated based on a Morningstar Risk-Adjusted Return measure that accounts for variation in a managed product's monthly excess performance, placing more emphasis on downward variations and rewarding consistent performance. The top 10% of products in each product category receive 5 stars, the next 22.5% receive 4 stars, the next 35% receive 3 stars, the next 22.5% receive 2 stars, and the bottom 10% receive 1 star. The Overall Morningstar Rating for a managed product is derived from a weighted average of the performance figures associated with its three-, five-, and 10-year (if applicable) Morningstar Rating metrics. DAVPX was rated against the following numbers of U.S.-domiciled Large Growth funds over the following time periods: **1,215 funds in the last three years, 1,112 funds in the last five years, and 791 funds in the last ten years. With respect to these Large Growth funds, DAVPX received a Morningstar Rating of two stars, two stars and three stars for the three-, five- and ten-year periods, respectively.** The weights are: 100% three-year rating for 36-59 months of total returns, 60% five-year rating/40% three-year rating for 60-119 months of total returns, and 50% 10-year rating/30% five-year rating/20% three-year rating for 120 or more months of total returns. While the 10-year overall star rating formula seems to give the most weight to the 10-year period, the most recent three-year period actually has the greatest impact because it is included in all three rating periods. Morningstar does not provide ratings for the 1 year period. **The Morningstar Ownership Zone™** provides detail about a portfolio's equity investment style by showing the range of stock sizes and styles. A portfolio's Ownership Zone™ is derived by plotting each stock in the fund's portfolio within the proprietary Morningstar Style Box™.

The shaded area represents the center 75% of the fund's assets, and it provides an intuitive visual representation of the area of the market in which the fund invests. A "centroid" plot in the middle of the Ownership Zone represents the weighted average of all the fund's holdings. A fund that is concentrated will have a small ownership zone relative to the area of the style box, and broadly diversified fund will have an ownership zone that stretches across many sizes and style. Over a period of time, the shape and location of a fund's ownership zone may vary. ©2018 Morningstar, Inc. All rights reserved. Lipper Leader Disclosure: As of 1/31/2018, Lipper ratings for Total Return reflect funds' historical total return performance relative to peers; Lipper ratings for Consistent Return reflect funds' historical risk-adjusted returns, adjusted for volatility, relative to peers; Lipper ratings for Preservation reflect funds' historical loss avoidance relative to other funds within the same asset class. Preservation ratings are relative, rather than absolute, measures and funds named Lipper Leaders for Preservation may still experience losses periodically; those losses may be larger for equity and mixed equity funds than for fixed income funds. The Lipper ratings are subject to change every month and are based on an equal-weighted average of percentile ranks for the Total Return, Consistent Return, and Preservation metrics over three-, five-, ten-year and overall periods (if applicable). The highest 20% of funds in each peer group are named Lipper Leader or a score of 5, the next 20% receive a score of 4, the middle 20% are scored 3, the next 20% are scored 2, and the lowest 20% are scored 1. DAVPX, in Lipper's Large Cap Core classification, received the following ratings for the 3-, 5-, 10 -year periods, and the overall respectively: **Total Return: 2 (698 funds), 2 (636 funds), 3 (476 funds), 2 (698 funds) ; Consistent Return: 2 (697 funds), 2 (635 funds), 3 (475 funds), 2 (697 funds); Preservation: 5 (11,901 funds), 5 (10,121 funds), 5 (6,639 funds), 5 (11,901 funds).** Lipper ratings are not intended to predict future results, and Lipper does not guarantee the accuracy of this information. More information is available at www.lipperweb.com. Thomson Reuters ©2018. All Rights Reserved.

The **S&P 500 Index** is comprised of 500 U.S. stocks and is an indicator of the performance of the overall U.S. stock market. The **Lipper Large Cap Core Funds Index** is an unmanaged index of the 30 largest funds in the Lipper Large Cap Core Fund category. An investor cannot invest in an index and index returns are not indicative of the performance of any specific investment.

Risk Considerations: The fund may not achieve its objective and/or you could lose money on your investment in the fund. Stock markets and investments in individual stocks are volatile and can decline significantly in response to market, foreign securities, small company, exchange
