

## Objective:

Long-term growth of capital and current income

## Market Cap Bias:

Large Cap

## Management:

Investment Policy Committee

## Strategy Inception:

12/31/2001

## Overview

- Value bias with broad diversification
- Differentiated ideas and flexibility to invest where we see value
- Risk management is strongly emphasized and central to investment process

## Investment Discipline

A focus on companies in three categories:

- Value stocks** – including deep value, contrarian ideas, special situations
- Income stocks** – high yielders, dividend growers, capital appreciation potential
- Foundation stocks** – household names with established business models and history of dividend payment and growth

## Sector Weightings\* (% Assets)

Communication Services	3.3	Industrials	11.4

**Risk** is measured by standard deviation. Standard deviation is the variability of returns around the average return. **Beta** is a measure of the volatility, or systematic (market-related) risk, of a portfolio as compared to the overall market. **Alpha** measures the excess return of your portfolio above the expected return as established by comparison to a beta-adjusted benchmark. The **Sharpe Ratio** indicates the excess returns over a risk-free asset per unit of total risk (where risk is measured by standard deviation). **R-Squared**

is a measure of the strength of the relationship between a portfolio and its benchmark. The **Upside Capture Ratio** measures a manager's performance in up markets relative to the market (benchmark) itself. The **Downside Capture Ratio** measures a manager's performance in down markets relative to the market (benchmark) itself.

**Performance shown is historical and is no guarantee of future results. Investing in securities carries risk including the possible loss of principal.**

The Value & Income Portfolio is represented by the Value & Income Equity Fee Only Composite. Composite performance reflects actual economic and market conditions. Significant cash flows and other unique circumstances can affect individual account performance. Performance is net of actual investment management fees. Growth of \$100,000 includes reinvestment of dividends and interest. The above illustrations are for informational purposes only and are not intended to provide specific financial planning or investment advice. Individual circumstances may vary.

The **Russell 1000® Value Index** measures the performance of the Russell 1000 companies with lower price-to-book ratios and lower forecasted growth values. The Russell 1000® Index is a trademark/service mark of the Frank Russell Co. Russell® is a trademark of the Frank Russell Co. The **Lipper Equity Income Fund Index** is an unmanaged index of the 30 largest funds in the Lipper Equity Income Fund category. The **S&P 500 Index** is comprised of 500 U.S. stocks and is an indicator of the performance of the overall U.S. stock market. *An investor cannot invest in an index and index returns are not indicative of the performance of any specific investment. Please see the reverse page of this document for additional information.*

As of 12/31/2018

\*Returns greater than one year are annualized. Since Inception Date: 12/31/01 \*\*Supplemental Information †Prior to 2011, the composite and benchmark three-year standard deviation were not required.

**Assets Under Advisement: \$258.3 (USD mm) of which \$101.7 (USD mm) is invested in the Value & Income strategy and managed in a unified managed account environment.**

**Performance shown is historical and is no guarantee of future results.** Investing in securities carries risk including the possible loss of principal. Composite performance reflects actual economic and market conditions. Significant cash flows and other unique circumstances can affect individual account performance.

**Definition of Firm:** Davenport Asset Management ("DAM") is a separate and distinct business entity of Davenport & Company LLC. DAM manages various investment strategies where DAM is responsible for security selection.

Davenport Asset Management claims compliance with the Global Investment Performance Standards (GIPS®) and has prepared and presented this report in compliance with the GIPS standards. Davenport Asset Management has been independently verified for the periods January 1, 1984 through June 30, 2018. Verification assesses whether (1) the firm has complied with all the composite construction requirements of the GIPS standards on a firm-wide basis and (2) the firm's policies and procedures are designed to calculate and present performance in compliance with the GIPS standards. The Value & Income Equity Composite has been examined for the periods December 31, 2001 through June 30, 2018. The verification and performance examination reports are available upon request.

**Strategy Description:** The Value & Income Strategy seeks to provide income and capital appreciation using stocks with above-average dividend yields, and has the option of adding high quality bonds and/or fixed income ETFs.

On September 30, 2017 the benchmark for the Value & Income Portfolio was changed to the Russell 1000 Value Index because it more closely reflects the investment strategy. From January 1, 2006 until September 30, 2017, the benchmark for the Value & Income Portfolio was the Lipper Equity Income Fund Index. Prior to January 1, 2006, the benchmark was the S&P 500/Citigroup Value Index.

Performance results are presented net of actual investment management fees. The Value & Income Equity Composite was created December 31, 2001, and includes the following requirements where applicable, among others: use of aggregate return method; use of total return to calculate performance; accrual accounting; use of trade-date reporting; use of time-weighted rates of return, monthly valuation and geometric linking of period returns; inclusion of cash and cash equivalents in returns; inclusion of all fee-paying, discretionary accounts in at least one composite; no linkage with simulated portfolios; the addition of new portfolios at the beginning of the first full quarter; exclusion of terminated portfolios after the last full quarter they were in place, but their inclusion for all quarters prior to terminating.

Portfolios below \$100,000 and accounts with margin balances and derivatives have been excluded from the Value & Income Equity Composite. Prior to September 30, 2016, the minimum value for inclusion in the composite was \$60,000. Prior to December 31, 2007, the minimum value for inclusion in the composite was \$75,000. Performance results are presented in U.S. dollars. Composite dispersion is measured using an equal-weighted standard deviation of returns of the portfolios. A complete list

and description of DAM composites and additional information regarding the firm's procedures for calculating and reporting performance returns are available upon request.

**Index Definitions:** The **Russell 1000® Value Index** measures the performance of the Russell 1000 companies with lower price-to-book ratios and lower forecasted growth values. The Russell 1000 Index is a trademark/service mark of the Frank Russell Co. Russell® is a trademark of the Frank Russell Co. The **S&P 500 Index** is comprised of 500 U.S. stocks and is an indicator of the performance of the overall U.S. stock market. The **Lipper Equity Income Fund Index** is an unmanaged index of the 30 largest funds in the Lipper Equity Income Fund category. *An investor cannot invest in these indices and their returns are not indicative of the performance of any specific investment.*

Internal Dispersion is a measure of the spread of the annual returns of individual portfolios within a composite; standard deviation is utilized. The 3-year annualized standard deviation measures the variability of the composite and the benchmark returns over the preceding 36-month period.

**Annual Fees:**  
 • 1.50% on the first \$1,000,000  
 • 1.25% on the next \$4,000,000  
 • 1.00% on amounts over \$5,000,000;  
 Minimum Fee: \$625 Quarterly

*The wrap fee reflects a fee for investment advisory services, custody of assets, and execution services and is generally a percentage of assets under management.*
